

Best Wedding Testimonials

We had an initial meeting where all our options were discussed and the products that were available were offered to us. No heavy sell and we were able to decide which package suited us best.

A second meeting at the venue of our wedding was arranged when we were able to run through the whole day and any special photos we wanted.

On the day itself the photographer was ready for our arrival and put us at ease. He then continued during and after the ceremony to take many wonderful pictures, some natural that were a great addition to the many organised ones.

He was extremely friendly at all times and mixed with our guests taking other requested pictures. The wedding book is out of this world and we couldn't be happier with the quality. We would highly recommend Best Wedding Photography

Steve provided us with a beautiful album, photo book and canvas.

We are extremely pleased with the service, the photos that we have recieved and with the way that they were presented to us.

All of the photos are very good quality and will be a lasting memory of our special day
